PURPOSE AND EFFECT

BYLAW NO. 60

TOWNSHIP OF LAKE OF THE WOODS

Bylaw No.60 is the first Comprehensive Zoning Bylaw for the Township of Lake of the Woods. The By-law regulates the use of all land, buildings and structures in the Township of Lake of the Woods. It authorizes the uses set out in the text and prohibits any use of land or the construction or use of buildings not specifically authorized, unless such use was lawfully in existence on the day the Bylaw was passed.

Applications to change or amend the Bylaw may be made at any time. All such amendments must be in conformity with the Official Plan for the Township of Lake of the Woods and must receive approval from Council.

All measurements in the Bylaw are in metric units. A conversion table is provided at the back of the By-law to assist in converting between metric measurements and imperial measurements.

The following is a brief summary of the provisions of the new Bylaw:

Section 1 of the Bylaw establishes that the Bylaw applies to all lands in the Township of Lake of the Woods and that no land shall be used and no building or structure shall be used, erected, altered or enlarged except in conformity with the By-law. It also establishes that the Bylaw shall come into force and effect as of the date of its passing by Council, if there are no objections, or upon approval by the Ontario Municipal Board, as may be modified by the Board, if there are objections.

Section 2 defines a number of terms used in the Bylaw.

Section 3 establishes that zone maps comprising Schedule "A", AB" "C" and AD" as part of the Bylaw and that the zone map is divided into a number of zones. It also provides a manner of interpreting zone boundaries.

Section 4 establishes general provisions that apply to more than one zone in the Bylaw. These general provisions cover such matters as accessory uses, lots having less than the required frontage or area, non-conforming uses, mobile homes, off street parking, home occupations and street frontage of building lots.

Section 5 through 14, inclusive, set out specific land use zones. There is a total of 10 zones, including one agricultural zone, one rural zone, three residential zones, a mobile home park zone, a commercial zone, one industrial zone, an institutional zone, an open space zone, a hazard land zone and a holding zone category. For each zone there is a list of permitted uses and standards, including minimum lot area, minimum lot frontage, maximum lot coverage, maximum height and minimum front, side and rear yards. Section 15 identifies specific exceptions to any zone category with respect to use and/or the zone provisions.
